PROFESSIONAL EXPERIENCE

DIRECTOR – PROFESSIONAL SERVICES, MENTOR & COO

Rheinbrucke IT Consulting, Dubai – Netherlands – India

/
04/2016 - Present

I am accountable for growth & profitability in professional services revenue including customer satisfaction measured as NPS, projects, programs & portfolio performance, operating efficiency, knowledge & training management. I role play as the IT-Business partner & mentor for the customers and enable their digital transformation goals, coach project managers in operational excellence & ensure conformance to demanding standards & methodologies

- Keeping cost structure flat, increased revenue to 120% YoY. Growth of > 500% was achieved over 5 years
- Have consistently won multi-million proposals each year in the last 4 years.
- Led the expansion to become a global organization. Directed multi-million projects across LATAM, EMEA & APAC spanning thousands of users. I conceived the roll-outs from scratch until the transition to support
- Built cross-continent delivery capability with 3 global deployments to become a global ISV
- Established near-shore centers in Ukraine & Sudan saving > USD 250K every year
- Conceived an Implementation Methodology -SCALE ® & Methodology certifications for use by Project Managers, consultants & customers. The methodology contributed to 100% execution success in 36 months
- Expanded the Professional Services presence to geo markets plus nearshore delivery centers in Ukraine & Sudan
- Streamlined professional services via objective goal setting, PMO, PSA platform, fiscal governance methods, SOW reviews, and revamped implementation methodology for SMEs (Rapid & Fast-tracked) to maximize services revenues
- Created a pioneering flat organization structure based on value creation and embedding earned value management metrics at the grass root level. The structure has delivered 25% headcount cost reduction YoY

Responsible for KNA & Install base services revenue growth, EBITA, strategic direction, marketing & Customer relationships, and KPIs - utilization, booking, backlog, NPS, employee training, and retention. My mission was to turn around & resurrect a struggling professional services P&L and resurrect an unhappy customer base

Achievements:

- Made profitable within 15 months, starting from a triple-digit negative position.
- Built 15 referenceable customers within 12 months & build relationships to establish a recurring revenue base
- Restructured to deliver doubled revenues (37% YoY); triple-digit margin growth YoY, record productivity rates & inspired customer loyalty with NPS of +12 within 30 months;
- Consistently overachieved exceeded financial targets for each year by at least 2/3 metrics every year
- Harvested \$4.5M from the install base & ongoing projects through a professional services advocacy program
- Executed a profitability-anchored growth strategy that drove organizational change, and exceptional results & win large customers in MEA within 18 months. The restructuring resulted in cost savings of \$4.4M in 18 Months
- Built innovative right-shoring strategic alliances & supplier management programs directly contributing to triple-digit margin growth in 15 months while delivering exceptional customer experience
- Direct value propositions to 4/5 of the largest regional wins of Epicor to date. Negotiated contracts & SOWs
- Performance Management to improve productive utilization and fund strategic initiatives by saving 15% of operating costs. Adapted situational leadership & 9-Box techniques for creating an engaged workforce

**PROGRAM MANAGER & IT BUSINESS PARTNER / Baker Hughes
05/2004)-(04/2012**

Direct implementation of enterprise solutions across MENA, APAC, Russia & Caspian. Establish IT strategy to support business cases & influence digital transformation. Be the business partner, and advisor & provide reports to business leaders. I specialized in developing IT strategy, work intake management, align IT investments to business value

Achievements:

- Started the Enterprise solutions team from scratch; Built an IT strategy, architecture & portfolio of applications digitizing the oil field services operations across the Middle East, North Africa, CIS, and South Asia.
- I bring subject matter expertise in the area of project management, infrastructure, architecture & business processes
- Architected the ERP program 40 % below budgeted costs, saving \$5M. Delivered ROI > \$25M within 3 years
- Championed to become a technology pioneer across 14 countries, 5 languages & > 2000 users in 36 months. The program included ERP, Sourcing, Spend Management, Service Management, Intellectual property solutions, BPMS, BI & Mobility

**MANAGER – PROFESSIONAL SERVICES / Epicor Software, Dubai
04/2000 - 04/2004**

Performed several roles starting with support analyst in ERP (iScala, Epicor), as ERP implementation specialist, project manager, and as Middle East & Africa Regional Manager responsible for customer success and business P&L.

Achievements:

- One of the first globally to be awarded iScala Certified Expert – a coveted certification only for experts in the field
- CAST awards runner-up competing with other support centers. I single-handedly managed the support center combining analytical thinking, and functional & technical skills in the Support Services Manager role
- Executed more than 10 ERP implementations successfully across the region
- Negotiated & Won the first major multi-million global project spanning 30 countries across the EMEA

EDUCATION & CERTIFICATIONS

MASTER OF BUSINESS ADMINISTRATION (MBA) / Pondicherry University / 1994 - 1996
